Dear Eduardo,

We are delighted that you have agreed to contribute a chapter to Part F: Diagrams, Visual Models and Abduction of the forthcoming Handbook of Abductive Cognition with Springer Press. At this stage, we would request from you the following information:

- 1) Your name and academic affiliation as you would like these to appear in the volume
- 2) Your preferred contact email
- 3) A tentative title for your chapter

Of these, the third is especially important. We would like to emphasize that this title can and should only be tentative at this point, as we may need to adjust topics somewhat to achieve balance across the coverage of the contributed chapters. Please recall that the chapters are meant to be reviews of a specific subtopic within the more general research area of "Diagrams, Visual Models and Abduction." As much as possible, try to express the intended theoretical scope of your chapter in your proposed title.

We look forward to receiving this information from you in the next several days, if possible. If you have any questions or concerns, please don't hesitate to ask. And thanks again for your participation in the project.

best regards,
Rocky and Gianluca

Hi Eduardo,

Thanks for sending this -- the tentative title sounds great for now. Gianluca and I will be reaching out with more information about the handbook section soon.

I hope you are doing well and staying safe! I've heard that the current virus situation in Brazil is somewhat dire.

all best wishes,
